THANKSGIVING FACTS

Of those Americans who traveled for Thanksgiving in 2007, approximately 80 percent (31.2 million) went by motor vehicle, 12.1 percent (4.7 million) by airplane and the rest (2.8 million) by train, bus or other mode of transportation.

The National Turkey Federation estimated that 46 million turkeys—one fifth of the annual total of 235 million consumed in the United States in 2007—were eaten at Thanksgiving.

The cranberry is one of only three fruits—the others are the blueberry and the Concord grape—that are entirely native to North American soil, according to the Cape Cod Cranberry Growers' Association.

2. Is it **Fair** to all concerned?
3. Will it build **Goodwill and Better Friendships**?
4. Will it be **Beneficial** to all concerned?
